Approved For Release 2000/08/21 : CIA-RDP33-02415A000500320003-7

FOIAb3a [redacted] 4 December 57

FOIAb3a [redacted]

Get hatches from 349 or one other to [redacted]
FOIAb3a [redacted] — so they can take look at it,
include horn measurements so correlation of data.

FOIAb3a [redacted] suggested printed circuit on inside of plastic CCC

FOIAb3a [redacted] is going to give FOIAb3a [redacted] piece of variable density material with variable resistance.
look into susceptance, impedance capacitance of materials.
Get USN report on radar studies of radomes.
Plastics must be doctored up for H.F.

At low f fiberglass & foam pass rays so foam is needed to take care of H.F
At low f where metal is to be covered about 3" of foam is needed.

Approved For Release 2000/08/21 : CIA-RDP33-02415A000500320003-7

Get sample of pyro-ceram
